

# How to get 15% off Delta?

To get 15% off Delta flights, you must have an eligible Delta SkyMiles® American Express Card (Gold, Platinum, or Reserve) and use miles to book "Award Travel" on Delta-operated flights. The 15% discount, known as "TakeOff 15," applies automatically to the mileage cost when booking on Delta.com or the Fly Delta app.

Acquiring a significant reduction in airfare costs is a primary objective for savvy travelers, and the most reliable way to secure a 15% discount on Delta Air Lines is through the TakeOff 15 benefit. This exclusive perk is specifically designed for SkyMiles Members who hold an eligible co-branded American Express card, such as the Delta SkyMiles Gold, Platinum, or Reserve cards, including their respective business versions. Unlike traditional promotional codes that are often elusive or restricted to specific dates, TakeOff 15 provides a consistent and automatic 15% discount on the mileage portion of award tickets booked directly through the Delta website or the Fly Delta mobile application. To activate this saving, cardholders simply need to log into their SkyMiles account and select the "Shop with Miles" option during the flight search process. The system instantly applies the deduction, showing the original mileage cost slashed out with the lower rate displayed, making your accumulated loyalty points stretch significantly further for domestic and international travel.

The operational mechanics of the TakeOff 15 program are remarkably streamlined, though there are specific eligibility parameters that travelers must understand to maximize their savings. This discount applies to any Delta-operated flight, meaning you can use it for Main Cabin, Delta Comfort+, Delta Premium Select, and even the luxurious Delta One suites. However, it is essential to note that the discount does not apply to flights operated by partner airlines like Air France or KLM, even if they are booked via Delta's
